How to search for tariff code and import tariff rate in Customs Integrated Tariff Database?

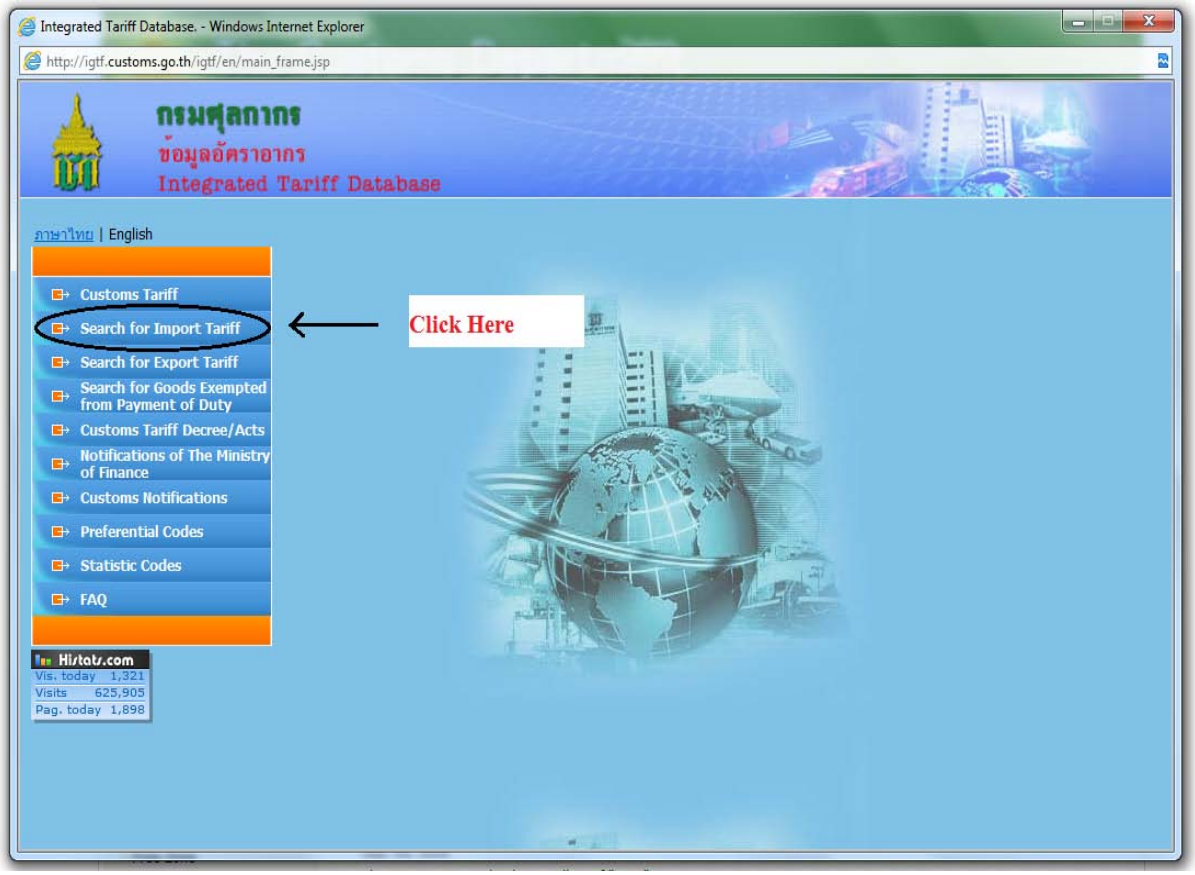

1. Enter to the Customs Department website at **www.customs.go.th**

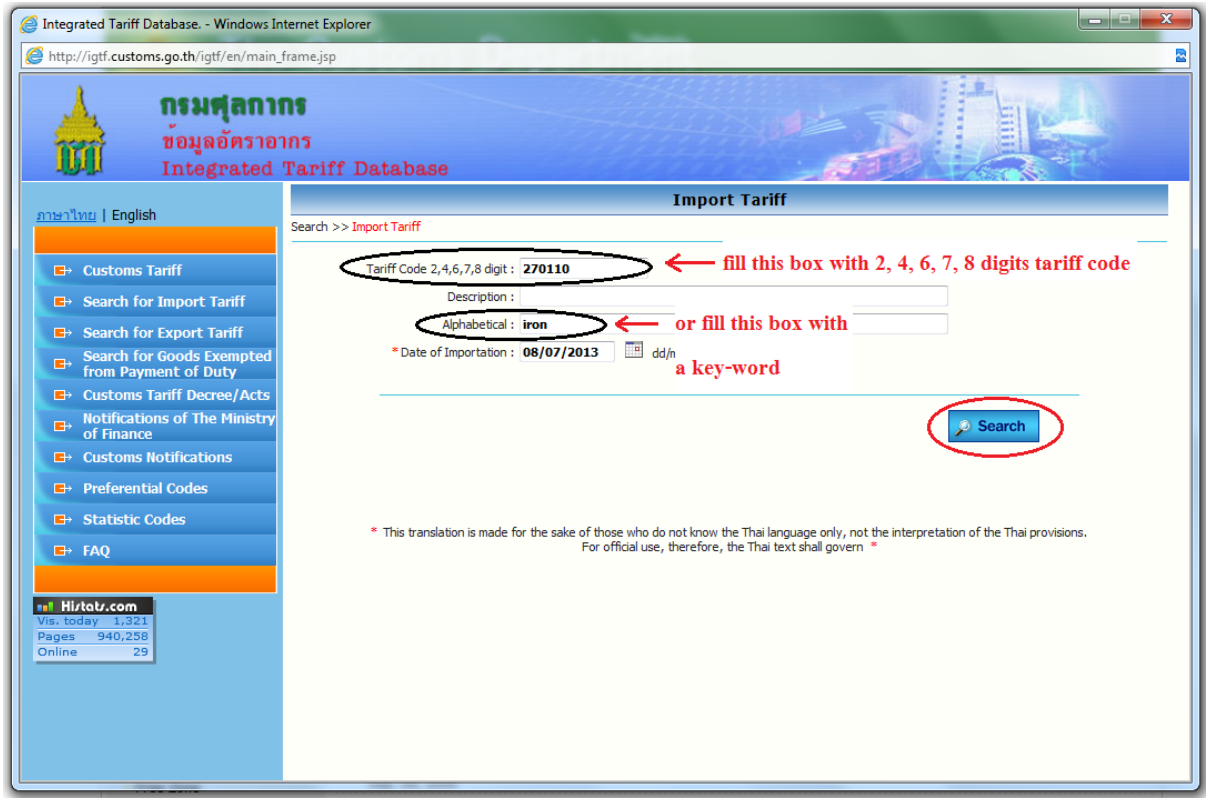

2. Click "**Integrated Tariff Database**" menu at the left of the page.

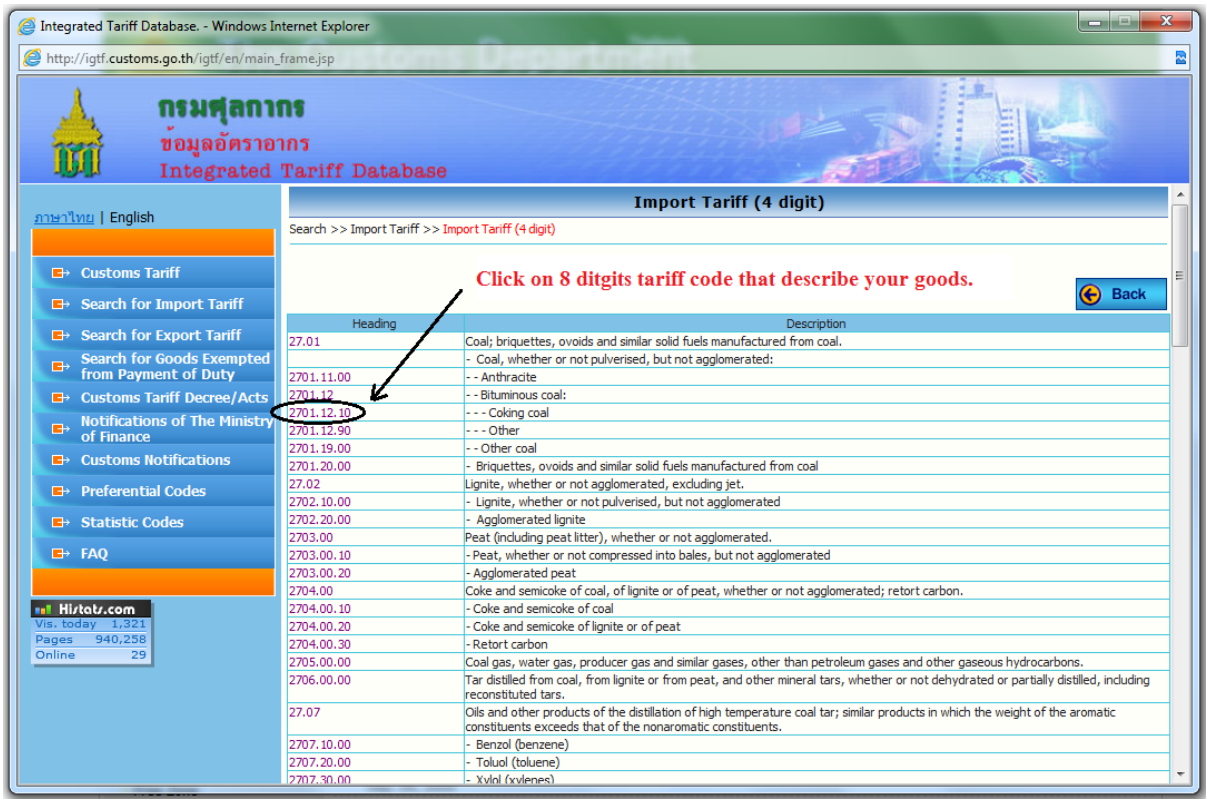

3. A new window as following picture appeared. Then, click "**Search for Import Tariff**" in menu at the left.

4. Fill the box with 2, 4, 6, or 8 digits tariff code without dot (For example, 7201 or 720110) or a key-word in the “Alphabetical” box then click “Search”.

5. If you search by 2 digits tariff code, a page with a full range list of goods in such heading will appear. Find 8 digits tariff code that describes your goods and click it.

6. A page with tables will appear. For current general import tariff rate, please look for the rate specified in table "**000 : Notification of the Ministry of Finance Section 12 of the Customs Tariff Decree B.E. 2530 (General Rate)**". In this page, you can also see the special import tariff rate of other privileges such as FTAs which you can see the Notification and its related documents by clicking on the link in the Notification column.
